HERE has been a lull in the soci al activities in Honolulu for the past week for no reason in parcuiar excepting that four previous reeks of unusual gayety in a warm limate lead to later relaxation. Then, oo, the last two weeks of school keep the students busy, and commencement gowns and furbelows take some time and energy for both the mother and girl graduate.

Gowns for commencement night at Punahou academy are to be very simple this year and no flowers are to be allowed. To the girls at least there is a gayer tinge to the cherished memory of last school days if bright floral gifts have been a part of them. Commencement for the academy takes place on next Saturday evening at Bishop hall on the campus and on the following Monday the school year closes with the commencement ball at the armory. This is always the large student affair of the year.

Complimenting Miss Henrietta Schwartz, Miss Helen Spalding entertained yesterday afternoon at an in formal tea at the Spaiding residence on Punahou street. Quantities of St. Joseph Iffles and other cut flowers ornamented the rooms in which many members of the younger set gathered to meet the popular debutante from San Francisco, for that is just what Miss Schwartz is, having made her debut at a theater party and dance at the St. Francis hotel, shortly before leaving for Honolulu, which she considers her one-time home. Some among Miss Spalding's guests were Miss Henrietta Schwartz, Miss Sara Lucas, Miss Ruth Anderson, Miss Pauline Schaefer, Miss Bernice Halstead, Miss Ruth McChesney, Miss Geraldine Berg, Miss Dorothy Guild, Miss Mary Lucas, Miss Harriet Lucas, Miss Rose Herbert, Miss Silburn Purvis, Miss Jessie Kennedy, Mrs. H P. ## The Creamlike

It scarcely would be possible to imagine more ideal conditions of manufacture than those existing in the spotless Crisco factory. Human hands do not come in contact with Crisco until you open the attractive can in

Crisco is unlike any other food product. Never has it been possible, before the discovery of the Crisco Process, to produce a solid fat from a vegetable oil without adding a stiffening agent. Nothing is added to Crisco. It is all vegetable, all pure, all digestible. It is the best or solid cream of the oil.

Crisco does more for cooking than any other fat known. The beneficial result of Crisco foods upon the digestion is as great in importance as the fact that they are more delicious.

Crisco is now used chiefly in those thousands of homes where men and women are most alert to the improvement of cooking methods and family digestion. They use Crisco for frying, for shortening, for cake making.

Make some simple test of Crisco. Then you will take pride in finding other ways of employing this product, which makes better foodsfoods that are better for you.
